

# TRIBAL

with  
Babassu & Moringa  
OIL

ETHNIC – FUSION – ART

The TRIBAL collection was inspired by the ancient Polynesian tradition of body painting using graphic motifs to express tribal affiliation and social status. Body art culture has developed significantly over the years penetrating and nowadays influencing music, dancing, interior design and fashion. Following our passion to constantly explore, interpret and reinvent classical forms and motifs, we created TRIBAL. Its aroma is the work of perfumers from the perfumery capital of the world – Grasse. The heart notes of the fragrance are of tuberose, called by many "The Queen of the night". The harmony of tuberose, sandalwood, musk, sweet scent of vanilla and fresh notes of blackcurrant and citrus follows the guests throughout their stay, creating an unforgettable experience. The carefully selected ingredients are of 92% natural origin, complemented by moringa and babassu oil. All bath care products are dermatologically tested and perfectly safe for skin and hair. They are certified and notified on the CPNP cosmetic portal of the EU.

#### BATH CARE PRODUCTS IN TUBES 30ml
