# PASSION – TEMPTATION - EMOTION

**VINOLOGY SPA** brings the passion of wine into your bathroom and spa. The active ingredients extracted from grapes are an extremely powerful antioxidant with a protective effect for the cell membrane. Grape seed oil supports the skin's natural water balance and provides long-lasting hydration. Embedded grape seeds support cell regeneration. The expressive aroma of Chardonnay with delicate green notes flows into the fruity sweetness of blackcurrant, mandarin, kiwi and tropical fruits, harmoniously interwoven with the noble sensuality of jasmine and spicy caramel. An aroma that delights the senses and, like an experienced sommelier, reveals the secrets of fine grapes.

Cosmetics have 92-98% natural composition.
